

Diy Strata Management Application

Project Scope

This project aims to develop a comprehensive Strata Management platform enabling seamless member authentication and account management, facilitating interactive communication through comments, group posts, and voting features, and providing robust scheduling and booking capabilities for community venues. The platform will also offer extensive administrative controls, including member and notice management, meeting scheduling, and poll creation, alongside financial tracking tools for levy and budget management. Additionally, an AI chatbot will be integrated to assist members with inquiries related to the Strata Management Act in Australia.

Replicate all the features from <https://stratascheme1.ourbodycorp.com.au/corp/>

password: Test123456

Member features:

1. Member authentication, signup/login. Account management.
2. Members can leave comments under notices/announcements on the timeline.
3. Members will be able to make group discussion posts.
4. Members can view upcoming meetings and agendas.
5. Members can vote on decisions made by the committee. (Yes/No)
6. Members can add meeting minutes to a meeting.
7. Members will be able to book a venue for tennis courts/swimming pool/gym booking for a particular time slot. Once booked, reserved timeslot cannot be booked by other members.
8. Members will be able to register themselves through a QR Code scan.
9. Document storage tab needs to be included which was shown from the demo login credentials which you have played around
10. Members can invite people to a meeting.
11. Folder wise documents.
12. Drag and drop sequence order
13. Complete the finance section including all in the reference link.

Admin features:

1. Admin authentication. Admin platform summary dashboard.
2. Admin can pay and manage subscriptions, and view transaction history.
3. Admin add, view, edit, and delete all the members of the platform.
4. Admin will be able to invite new members. different roles under the member tab
Members: Strata manager, Admin, Chair, Treasure, Secretary, Strata committee, Owner, property manager, Tenant.
Members will have the following access to the dashboard when the admin assigns a member's role from the member's tab:
Strata manager, Chair, admin, and super admin role: have all dashboard functions
Treasure: access to financial management function
Secretary: access to meeting and decision maker tab
Strata committee, owner, property manager, Tenant: Access to group chat, venue booking and notice board
5. Admin can add, edit, view, and delete notices/announcements.
6. Admin can add, edit, view, and delete upcoming meetings with dates, and agendas. Will be able to add, edit, view, and delete meeting minutes after the meeting.
7. Admin can add, edit, view, and delete a poll to receive votes.
8. Admin can list venues such as tennis courts/swimming pool/gym etc for members to book. View the bookings based on timeslot.

Other features:

1. Create a strata levy, record payments, and expenses, and create an annual budget.
2. AI chatbot to answer member inquiries about the Strata Management Act in Australia
3. Subscription management. Stripe integration.
4. Email notifications for the functions we set up e.g. receiving a strata levy payment, new notice from the noticeboard, new group chat, new meetings, voting poll, etc.
5. Super admin and strata manager dashboard, we will be able to select a strata scheme and then view its members, notice, group chat, and meetings functions under that strata scheme.
